AGENDA

12:45 - 1:00 - Registration

1:00 - 1:10 - Welcome and Code of Conduct

1:10 - 2:00 - Lecture 1: Advanced Excel, Ash Chambers

Ash is a research writer and data scientist, and she is experienced in social, medical, and biological research. As a consultant, she supports groups in preparing, analyzing, and communicating their investigations. Whether it be creating visual summaries or drafting written proposals she enjoys helping others share their work.

2:00 - 2:50 - Lecture 2: Evaluation in R, Sydnee Stoyles

Sydnee graduated from the University of Puget Sound in 2008 with a Bachelors of Science in Mathematics and in 2009 with a Masters of Arts in Teaching. After three years of teaching math to middle and high school students, Sydnee returned to school and earned her Masters of Biostatistics from Oregon Health and Science University in 2015. Since then she has worked for the Stat Core department in the School of Nursing at OHSU.

2:50 - 3:10 - Coffee break on OPEN

3:10 - 4:00 - Lecture 3: Geographic Information Systems (GIS) 101, Greg Townley

Greg Townley is an Associate Professor in the Department of Psychology at Portland State University, where he also serves as Director of Research for the Homelessness Research & Action Collaborative. He holds a Ph.D. in clinical-community psychology and BAs in psychology and Africana studies. His research focuses primarily on community inclusion of individuals with serious mental illnesses, homelessness, and sense of community among marginalized groups. Greg uses a variety of social-environmental research methods, including GIS, neighborhood assessments, and ethnographic approaches.
