

## **AY 2023-24 PROGRAM GUIDE**

### **Master of Public Health, Health Management & Policy**

Information in this document is updated annually. Please refer to the document for the year you entered the program. Student resources, policies, and procedures applicable to all School of Public Health graduate students can be found on the SPH website, [www.ohsu-psu-sph.org](http://www.ohsu-psu-sph.org).

#### **Overview**

Program Director: Jill Rissi, PhD ([jrissi@pdx.edu](mailto:jrissi@pdx.edu))

Website: <https://ohsu-psu-sph.org/mph-health-management-policy/>

The goal of the Health Management & Policy program is to develop and strengthen the knowledge and practice of the delivery and management of health services. The program prepares individuals for the exercise of competent and effective policy and administrative leadership in the health sector. The Health Management & Policy curriculum includes the core concepts of public health with specific instruction in management, finance, strategy, policy, economics, and ethics.

#### **Program Competencies**

Students graduating from the MPH: Health Management and Policy (HMP) program will be able to:

- 1. Demonstrate effective verbal, written and interpersonal communication skills.**
- 2. Demonstrate ethical, social, and cultural competency.**
- 3. Engage with and integrate the knowledge and experience of other health professions, stakeholders, and communities.**
- 4. Demonstrate critical and self-reflective thinking.**
- 5. Apply theory to practice to design, implement, manage, and evaluate organizational performance and health policy.**
- 6. Apply policy process knowledge and advocacy techniques to develop and implement policies that advance health.**
- 7. Select and apply appropriate methods to analyze, evaluate, and manage health system programs and services.**
- 8. Demonstrate professionalism and leadership skills.**

A listing of graduate student resources, policies, and procedures may be found on the final page of this guide.

### MPH Health Management & Policy: Sample Course Schedules

Below are recommended course schedules for full and part-time students, although other schedule configurations are possible. Please note that each SPH program has a quarter in which its students are prioritized for registration for certain (required) courses and students in non-prioritized programs will not be allowed to register for off-term prioritized courses until the priority registration period ends, and then, only if seats are available. Registration for open seats is on a first-come, first-served basis. It is important that you register promptly, and that you make every attempt to follow the term-by-term course plans laid out below, when the HMP program has priority for those required courses. The priority courses and terms for HMP students are noted in **boldface** type in the sample schedules below.

Priority registration is only for a limited period (typically 2 weeks, longer for fall). Once the priority registration period ends, students from other programs may register for the HMP prioritized courses and, similarly, you may register for courses that were prioritized for other programs. While there is some flexibility to take courses in alternate terms, *we can only hold space for you during your prioritized registration term, during the priority registration period.* If you wait to register until after the priority period, or need to take a course in another term, the SPH cannot guarantee you will be able to register.

Elective courses should be selected in consultation with your Faculty Advisor. If you receive federal financial aid, it is important to be aware of financial aid requirements when planning your schedule. Federal loan programs require at least 1/2-time enrollment (5 credits). Please refer to the OHSU's "Student Financial Aid Explained" and "Standard Enrollment Plan" documents, paying particular attention to summer term, for more information. These documents can be found on OHSU's Financial Aid website here: <https://www.ohsu.edu/education/financial-aid>.
