

Faculty Scholarship Lecture Series

Empowering Educators with DEIJ Datasets: A Journey of Transformation

with Dr. Nicole Wakim

November 30, 2023

10:00 - 11:00 AM PST

VPT 515; hybrid

Sponsored by SPH Academic Affairs

Spotlight on New Faculty

Dr. Wakim is an Assistant Professor of Biostatistics in the School of Public Health, teaching Introduction to Probability, Linear Regression, and Categorical Data Analysis. Her current focus is teaching Biostatistics courses, collaborating with scientific researchers, and developing pedagogy resources. Her passion project focuses on creating a data repository including social epidemiological issues and analysis. Her goal is to alleviate the time commitment for professors to find, access, and utilize DEIJ data in their classroom, with the aims to provide thoughtful analysis, lessons, and classroom activities.
