## 2024-2025 PROGRAM GUIDE: Master of Public Health – Public Health Practice

Information in this document is updated annually. Please refer to the document for the year you entered the program. Student resources, policies, and procedures applicable to all School of Public Health graduate students can be found on the SPH website, [www.ohsu-psu-sph.org](http://www.ohsu-psu-sph.org).

### Overview

**Director:** Elizabeth Needham Waddell, MA, PhD ([waddelle@ohsu.edu](mailto:waddelle@ohsu.edu))  
<https://ohsu-psu-sph.org/mph-in-public-health-practice/>

Students in the MPH in Public Health Practice program acquire broad knowledge about and perspectives on public health policy and practice, with particular emphasis on improving primary healthcare accessibility and quality for underserved populations based on the concepts and principles of primary health care defined by the World Health Organization (universal coverage, service delivery, public policy, leadership, and stakeholder participation). To support working and distance students, coursework for the MPH in Public Health Practice program may be completed entirely online. Online MPH students also have the option to complete some of their courses in person. Graduates are employed by state and local government agencies, non-profits, and community organizations.

### Program Competencies

At the end of the MPH in Public Health Practice program, the graduate will be able to:

- Assess, analyze, and synthesize the health status of vulnerable populations.
- Identify, develop and manage interventions to promote and protect the health of populations at risk.
- Lead and participate in inter-professional efforts to address health inequities with community partners.
- Conduct, participate in, or apply research that improves the health of a population.
- Assess and integrate cultural beliefs and practices into public health interventions.
- Develop and plan interventions utilizing principles of health systems organization and health care finance to address health disparities.
- Apply program planning and quality improvement principles in the development, management and/or evaluation of population health services.
- Demonstrate basic skills in development of a grant proposal.
- Employ techniques to manage human, fiscal, and other public health resources.

## MPH: Public Health Practice Recommended Course Sequencing

Always consult your Faculty Advisor regarding your program of study and course selection to determine the schedule that fits best. If you receive federal financial aid, it is important to be aware of financial aid requirements when planning your schedule. Federal loans require at least 1/2 time enrollment (5 credits). Please refer to the OHSU's "Student Financial Aid Explained" and "Standard Enrollment Plan" documents (<https://www.ohsu.edu/education/financial-aid>), paying particular attention to summer term, for more information.
